

FTI Consulting Reports Record Third Quarter 2019 Financial Results

October 24, 2019

- *Third Quarter 2019 Revenues of \$593.1 Million, Up 15.6% Compared to \$513.0 Million in Prior Year Quarter*
- *Third Quarter 2019 EPS of \$1.59, Up 39.5% Compared to \$1.14 in Prior Year Quarter; Third Quarter 2019 Adjusted EPS of \$1.63, Up 63.0% Compared to \$1.00 in Prior Year Quarter*
- *Company Raises Full Year 2019 Guidance Ranges for Revenues, EPS and Adjusted EPS to Reflect Record Year-to-Date 2019 Performance*

WASHINGTON, Oct. 24, 2019 (GLOBE NEWSWIRE) -- FTI Consulting, Inc. (NYSE: FCN) today released financial results for the quarter ended September 30, 2019.

Third quarter 2019 revenues of \$593.1 million increased \$80.1 million, or 15.6%, compared to revenues of \$513.0 million in the prior year quarter. Excluding the estimated negative impact from foreign currency translation ("FX"), revenues increased \$86.7 million, or 16.9%, compared to the prior year quarter. The increase in revenues was driven by higher demand across all business segments compared to the prior year quarter. Net income of \$60.4 million compared to \$44.3 million in the prior year quarter. The increase in net income was primarily due to higher operating profits in the Corporate Finance & Restructuring and Forensic and Litigation Consulting segments.

Adjusted EBITDA of \$92.3 million, or 15.6% of revenues, compared to \$67.4 million, or 13.1% of revenues, in the prior year quarter. The increase in Adjusted EBITDA was primarily due to higher revenues in the Corporate Finance & Restructuring and Forensic and Litigation Consulting segments, which was partially offset by higher compensation, primarily related to a 16.7% increase in billable headcount and higher variable compensation, as well as higher selling, general and administrative ("SG&A") expenses compared to the prior year quarter.

Third quarter 2019 fully diluted earnings per share ("EPS") of \$1.59 compared to \$1.14 in the prior year quarter. Third quarter 2019 EPS included \$2.2 million of non-cash interest expense related to the Company's 2.0% convertible senior notes due 2023 ("2023 Convertible Notes"), which decreased EPS by \$0.04. Third quarter 2018 EPS included a \$6.2 million after-tax gain related to the sale of the Company's Ringtail e-discovery software and related business ("Ringtail divestiture"), which increased EPS by \$0.16. Third quarter 2019 Adjusted EPS of \$1.63, which excludes the non-cash interest expense, compared to Adjusted EPS of \$1.00 in the prior year quarter.

Commenting on these results, [Steven H. Gunby](#), President and Chief Executive Officer of FTI Consulting, said, "These powerful results reflect our focus: investing in great professionals to enhance our ability to serve our clients as they navigate their most complex business challenges and opportunities."

Cash Position and Capital Allocation

Net cash provided by operating activities of \$131.3 million for the quarter ended September 30, 2019 compared to \$120.9 million for the quarter ended September 30, 2018. The year-over-year increase in cash provided by operating activities was largely due to an increase in cash collected resulting from higher revenues compared to the prior year quarter, which was partially offset by an increase in compensation-related costs.

During the quarter, the Company repurchased 90,848 shares of its common stock at an average price per share of \$85.11 for a total cost of \$7.7 million. As of September 30, 2019, approximately \$94.6 million remained available for stock repurchases under the Company's \$400.0 million stock repurchase authorization.

Cash and cash equivalents of \$258.5 million at September 30, 2019 compared to \$505.9 million at September 30, 2018 and \$189.1 million at June 30, 2019. Total debt, net of cash, of \$57.8 million at September 30, 2019 compared to \$110.4 million at September 30, 2018 and \$147.1 million at June 30, 2019. The sequential decrease in total debt, net of cash, was primarily due to an increase in cash provided by operating activities and repayment of borrowings under the Company's revolving credit facility, which was partially offset by payments related to the August 2019 acquisition of Andersch AG.

Third Quarter 2019 Segment Results

Corporate Finance & Restructuring

Revenues in the Corporate Finance & Restructuring segment increased \$56.3 million, or 41.6%, to \$191.7 million in the quarter compared to \$135.4 million in the prior year quarter. Excluding the estimated negative impact from FX, revenues increased \$57.7 million, or 42.6%, compared to the prior year quarter. The increase in revenues was due to higher demand for restructuring and business transformation and transactions services. Adjusted Segment EBITDA of \$48.1 million, or 25.1% of segment revenues, compared to \$26.8 million, or 19.8% of segment revenues, in the prior year quarter. The increase in Adjusted Segment EBITDA was due to higher revenues with improved utilization, which was partially offset by higher compensation, related to an increase in variable compensation and billable headcount and higher SG&A expenses.

Forensic and Litigation Consulting

Revenues in the Forensic and Litigation Consulting segment increased \$16.0 million, or 12.6%, to \$142.7 million in the quarter compared to \$126.7 million in the prior year quarter. Excluding the estimated negative impact from FX, revenues increased \$17.0 million, or 13.4%, compared to the prior year quarter. The increase in revenues was primarily due to higher demand for disputes and investigations services. Adjusted Segment EBITDA of \$27.0 million, or 18.9% of segment revenues, compared to \$22.0 million, or 17.3% of segment revenues, in the prior year quarter. The increase in Adjusted Segment EBITDA was due to higher revenues, which was partially offset by higher compensation, primarily related to an increase in billable headcount and higher SG&A expenses.

Economic Consulting

Revenues in the Economic Consulting segment increased \$2.5 million, or 1.8%, to \$141.7 million in the quarter compared to \$139.2 million in the prior year quarter. Excluding the estimated negative impact from FX, revenues increased \$4.7 million, or 3.4%, compared to the prior year quarter. The increase in revenues was largely due to higher demand for non-merger and acquisition-related antitrust services. Adjusted Segment EBITDA of \$19.4 million, or 13.7% of segment revenues, compared to \$23.2 million, or 16.7% of segment revenues, in the prior year quarter. Adjusted Segment EBITDA declined compared to the prior year quarter, as the increase in revenues was more than offset by higher compensation, related to an increase in variable compensation and billable headcount and higher SG&A expenses.

Technology

Revenues in the Technology segment increased \$0.4 million, or 0.7%, to \$57.1 million in the quarter compared to \$56.7 million in the prior year quarter. Excluding the estimated negative impact from FX, revenues increased \$0.9 million, or 1.5%, compared to the prior year quarter. The increase in revenues was primarily due to higher demand for global cross-border investigations and litigation services, which was offset by lower demand for merger and acquisition-related "second request" services. Adjusted Segment EBITDA of \$12.3 million, or 21.5% of segment revenues, compared to \$11.5 million, or 20.2% of segment revenues, in the prior year quarter. The increase in Adjusted Segment EBITDA was due to higher revenues and lower SG&A expenses, largely due to a decline in research and development expense resulting from the September 2018 Ringtail divestiture, which was partially offset by higher compensation, due to an increase in billable headcount and variable compensation.

Strategic Communications

Revenues in the Strategic Communications segment increased \$4.9 million, or 8.9%, to \$60.0 million in the quarter compared to \$55.1 million in the prior year quarter. Excluding the estimated negative impact from FX, revenues increased \$6.4 million, or 11.7%, compared to the prior year quarter. The increase in revenues was primarily due to higher demand for project-based corporate reputation services in North America and Europe, the Middle East and Africa. Adjusted Segment EBITDA of \$12.6 million, or 21.1% of segment revenues, compared to \$10.8 million, or 19.6% of segment revenues, in the prior year quarter. The increase in Adjusted Segment EBITDA was due to higher revenues, which was partially offset by higher compensation, related to an increase in billable headcount and variable compensation and higher SG&A expenses.

2019 Guidance

Given the record year-to-date 2019 performance, the Company is raising its full year revenue, EPS and Adjusted EPS guidance for 2019. The Company now estimates that 2019 revenues will range between \$2.250 billion and \$2.300 billion. This compares to the previous revenue guidance of between \$2.175 billion and \$2.250 billion. The Company now estimates that 2019 EPS will range between \$5.63 and \$5.88. This compares to the previous EPS guidance of between \$4.88 and \$5.38. The Company now estimates that 2019 Adjusted EPS will range between \$5.75 and \$6.00. This compares to the previous Adjusted EPS guidance of between \$5.00 and \$5.50. The \$0.12 per share variance between EPS and Adjusted EPS guidance for full year 2019 includes estimated non-cash interest expense of approximately \$0.17 per share related to the Company's 2023 Convertible Notes and the first quarter 2019 \$0.05 per share tax gain related to the Ringtail divestiture.

Third Quarter 2019 Conference Call

FTI Consulting will host a conference call for analysts and investors to discuss third quarter financial results at 9:00 a.m. Eastern Time on Thursday, October 24, 2019. The call can be accessed live and will be available for replay over the internet for 90 days by logging onto the Company's investor relations website [here](#).

About FTI Consulting

FTI Consulting, Inc. is a global business advisory firm dedicated to helping organizations manage change, mitigate risk and resolve disputes: financial, legal, operational, political & regulatory, reputational and transactional. With more than 4,700 employees located in 28 countries, FTI Consulting professionals work closely with clients to anticipate, illuminate and overcome complex business challenges and make the most of opportunities. The Company generated \$2.03 billion in revenues during the fiscal year 2018. More information can be found at www.fticonsulting.com.

Use of Non-GAAP Measures

In the accompanying analysis of financial information, we sometimes use information derived from consolidated and segment financial information that may not be presented in our financial statements or prepared in accordance with generally accepted accounting principles ("GAAP"). Certain of these measures are considered "non-GAAP financial measures" under the U.S. Securities and Exchange Commission ("SEC") rules. Specifically, we have referred to the following non-GAAP measures:

- Total Segment Operating Income
- Adjusted EBITDA
- Total Adjusted Segment EBITDA
- Adjusted EBITDA Margin
- Adjusted Net Income
- Adjusted Earnings per Diluted Share
- Free Cash Flow

We have included the definitions of Segment Operating Income (Loss) and Adjusted Segment EBITDA, which are GAAP financial measures, below in order to more fully define the components of certain non-GAAP financial measures presented in this press release. We define Segment Operating Income (Loss) as a segment's share of consolidated operating income. We define Total Segment Operating Income, which is a non-GAAP financial measure, as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. We use Segment Operating Income (Loss) for the purpose of calculating Adjusted Segment EBITDA. We define Adjusted Segment EBITDA as a segment's share of consolidated operating income before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. We use Adjusted Segment EBITDA as a basis to internally evaluate the financial performance of our segments because we believe it reflects current core operating performance and provides an indicator of the segment's ability to generate cash. We define Adjusted EBITDA Margin, which is a non-GAAP financial measure, as Adjusted EBITDA as a percentage of total revenues.

We define Total Adjusted Segment EBITDA, which is a non-GAAP financial measure, as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. We define Adjusted EBITDA, which is a non-GAAP financial measure, as consolidated net income before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges, gain or loss on sale of a business and losses on early extinguishment

of debt. We believe that these non-GAAP financial measures, when considered together with our GAAP financial results and GAAP financial measures, provide management and investors with a more complete understanding of our operating results, including underlying trends. In addition, EBITDA is a common alternative measure of operating performance used by many of our competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in our industry. Therefore, we also believe that these non-GAAP financial measures, considered along with corresponding GAAP financial measures, provide management and investors with additional information for comparison of our operating results with the operating results of other companies.

We define Adjusted Net Income and Adjusted Earnings per Diluted Share ("Adjusted EPS"), which are non-GAAP financial measures, as net income and earnings per diluted share ("EPS"), respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges, losses on early extinguishment of debt, non-cash interest expense on convertible notes, gain or loss on sale of a business and the impact of adopting the 2017 U.S. Tax Cuts and Jobs Act (the "2017 Tax Act"). We use Adjusted Net Income for the purpose of calculating Adjusted EPS. Management uses Adjusted EPS to assess total Company operating performance on a consistent basis. We believe that these non-GAAP financial measures, when considered together with our GAAP financial results and GAAP financial measures, provide management and investors with an additional understanding of our business operating results, including underlying trends.

We define Free Cash Flow, which is a non-GAAP financial measure, as net cash provided by operating activities less cash payments for purchases of property and equipment. We believe this non-GAAP financial measure, when considered together with our GAAP financial results, provides management and investors with an additional understanding of the Company's ability to generate cash for ongoing business operations and other capital deployment.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable with other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in our Consolidated Statements of Comprehensive Income. Reconciliations of non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the financial tables accompanying this press release.

Safe Harbor Statement

This press release includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve uncertainties and risks. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues, future results and performance, expectations, plans or intentions relating to acquisitions, share repurchases and other matters, business trends and other information that is not historical, including statements regarding estimates of our future financial results. When used in this press release, words such as "estimates," "expects," "anticipates," "projects," "plans," "intends," "believes," "forecasts" and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, estimates of our future financial results, are based upon our expectations at the time we make them and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management's expectations, beliefs and estimates will be achieved, and the Company's actual results may differ materially from our expectations, beliefs and estimates. Further, preliminary results are subject to normal year-end adjustments. The Company has experienced fluctuating revenues, operating income and cash flows in prior periods and expects that this will occur from time to time in the future. Other factors that could cause such differences include declines in demand for, or changes in, the mix of services and products that we offer; the mix of the geographic locations where our clients are located or where services are performed; fluctuations in the price per share of our common stock; adverse financial, real estate or other market and general economic conditions; and other future events, which could impact each of our segments differently and could be outside of our control; the pace and timing of the consummation and integration of future acquisitions; the Company's ability to realize cost savings and efficiencies, competitive and general economic conditions; retention of staff and clients; new laws and regulations, or changes thereto, including the 2017 Tax Act; and other risks described under the heading "Item 1A, Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2018, filed with the SEC, including the risks set forth under "Risks Related to Our Reportable Segments" and "Risks Related to Our Operations," and in the Company's other filings with the SEC. We are under no duty to update any of the forward-looking statements to conform such statements to actual results or events and do not intend to do so.
