

FTI Consulting Announces 2012 ERISA Litigation and Compliance Breakfast Series

April 10, 2012

WEST PALM BEACH, Fla., April 10, 2012 /PRNewswire/ -- FTI Consulting, Inc. (NYSE: FCN), the global business advisory firm dedicated to helping organizations protect and enhance their enterprise value, today announced the launch of the 2012 ERISA Litigation and Compliance Breakfast Series.

Join leading industry and regulatory experts in a lively discussion about the changing legal and financial landscape for ERISA fiduciaries, counsel and asset managers. Aimed at professionals who work for or with corporate benefit plans, these breakfast meetings examine the impact of new rules and regulations, lessons learned from the courts, and ways to mitigate personal and professional liability at a time when fiduciary litigation is soaring.

The breakfast seminars will be held in New York, Chicago, Boston, Washington, D.C., Philadelphia and San Francisco and offer a chance to hear and participate in a moderated panel discussion session about important topics such as pension and 401(k) plan governance, service provider due diligence, fee economics, withdrawal liability, successor liability, bankruptcy restructuring and much more. Stay abreast of breaking news, network with colleagues and earn CLE, if applicable. Call-in arrangements will be made for those who cannot attend in person so you can participate in each and every event.

"Companies around the world are fast realizing that poor employee benefit plan risk management and governance impacts participants, creditors, suppliers and shareholders in numerous ways," said Basil Imburgia, Senior Managing Director of the Forensic and Litigation Consulting practice of FTI Consulting. "This is no time to look the other way. Bad decisions about how trillions of retirement plan dollars are deployed can roil the bottom line, destroy enterprise value and make things tough for millions of people. Our goal in rolling out the FTI Consulting 2012 ERISA Litigation and Compliance Breakfast Series is to empower executives to make good decisions by being able to ask questions of experts at a time of great uncertainty."
