Notes to Financial Statements (Unaudited)
June 30, 1996

1. Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and Item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month and six month periods ended June 30, 1996 are not necessarily indicative of the results that may be expected for the year ended December 31, 1996. For further information, refer to the financial statements and footnotes thereto included in the Registration Statement on Form SB-2.

2. Discontinued Operations

As described in the notes to the 1995 audited financial statements, in March 1996 the Company agreed to sell the Annaplix division to a group including the former owner, who during 1995 managed the division as an officer of the Company, and certain other officers and stockholders of the Company. The Company, effective March 31, 1996, sold the furniture, equipment, and intangible assets of the division in exchange for cash of \$150,000, and retained ownership of billed and unbilled accounts receivable, buildings and accounts payable.

The Company recorded the results of operations and estimated loss on the sale of Annaplix as a discontinued operation in the 1995 annual financial statements. At December 31, 1995, the Company recorded an accrual of \$478,828 for the estimated loss on the sale of the division, which included \$285,000 for the estimated operating losses, net of the related income tax benefit, for the period from January 1, 1996 through March 31, 1996, the effective date of disposal. The actual loss did not differ materially from the Company's estimate.

3. Common Stock Subject To Repurchase

The Company has entered into an agreement with a former employee to repurchase or cause another to purchase 29,018 shares of Class A Common Stock at \$4.76187 per share in January 1996 and 29,022 shares of Class A Common Stock at \$5.95238 per share in January 1997. The former employee retains ownership rights in the Class A Common Stock until repurchase. In January 1996, the Company paid the former employee the installment due of \$138,180 and retired the Common Stock repurchased. In May 1996, the Company paid the former employee \$172,250 to retire the remaining obligation. This commitment is classified as Common Stock subject to repurchase in the accompanying balance sheets.

Forensic Technologies International Corporation
Notes to Financial Statements (Unaudited)
June 30, 1996 (continued)

4. Stockholder's Equity

On January 12, 1996, the Board of Directors approved the issuance of options to purchase 184,800 shares of Class A Common Stock to key employees. The exercise price of the granted shares is \$6.38 per share, or the estimated fair market value of a share of Class A Common Stock at the date of grant, and the options vest ratably over a three year period.

On January 26, 1996, the Board of Directors approved a 4.2-for-1 stock split of the Company's Class A Common Stock. The application of anti-dilution provisions effectively resulted in a 4.2-for-1 split of the Class B Common Stock and Series A Redeemable Preferred Stock. The stated par values of the common and preferred stocks were not changed. All share and per share amounts have been restated to retroactively reflect the split of the Class A Common Stock and effective split of the Class B Common Stock and Series A Redeemable Preferred Stock.

The Board of Directors on January 26, 1996 also amended the Company's articles of incorporation to change the authorized number of shares of preferred stock of all classes to 4,000,000 shares upon the closing of the initial public offering. Upon the closing of the initial public offering in May 1996, the Company's outstanding 8% Convertible Subordinated Debentures and all shares of Series A Redeemable Convertible Preferred Stock converted into shares of Common Stock.

Item 2

Forensic Technologies International Corporation

Management's Discussion and Analysis of
Results of Operations and Financial Condition

Results of Operations

Revenues for the second quarter and six months ended June 30, 1996, increased 38.8%, to \$7.1 million and 36% to \$13.4 million over the same periods in 1995, respectively. These increases are primarily the result of revenues from trial

consulting, growing 130% to \$1.5 million in the quarter and 162% to \$3.2 million for the six months, and visual communication services increasing 66% to \$3.5 million during the quarter and 40% to \$5.9 million for the six months. Such increases were primarily attributable to the seasoning of the Chicago and Los Angeles offices. Engineering revenues for the quarter and six months declined 18% to \$1.8 million and 9% to \$3.7, respectively, due primarily to the lack of activity in any major cases during these periods.

Direct costs, as a percentage of revenue, increased during the quarter and six months, resulting primarily from the redirection of efforts by certain key personnel from selling, general and administrative activities to revenue generating activities. Additionally, the increase was due to the increased percentage of revenue from trial consulting which carries slightly higher direct costs. Interest expense increased in both the quarter and six months due to a significantly higher average outstanding balance on the line of credit.

Income from continuing operations grew 53% to \$585,100 during the second quarter and 55% to \$948,400 for the six months. This growth is principally the result of the increase in both trial consulting and visual communication services revenues while costs remained approximately constant as a percentage of revenue. Income from discontinued operations, the company's division providing general data processing consulting services and network administration services sold during the first quarter of 1996, amounted to \$18,900 and \$68,400 for the quarter and six months ended June 30, 1995.

Liquidity and Sources of Capital

Cash flow during the quarter increased as a result of the proceeds from the recent sale of the company's stock, providing approximately \$11.4 to be used to repay the company's borrowings under a revolving line of credit, purchase additional video and animation equipment and develop new technology. The balance of the net proceeds, approximately \$7.1 million, will be used for general corporate purposes, including possible acquisitions.

Part II. Other Information

Item 6. Exhibits and Reports on Form 8-K

The Company did not file any reports on Form 8-K during the three months ended June 30, 1996.
