

FTI Consulting Adds John Siedlecki to Health Solutions Practice

March 29, 2017 at 7:30 AM EDT

WASHINGTON, March 29, 2017 (GLOBE NEWSWIRE) -- FTI Consulting, Inc. (NYSE:FCN) today announced that the firm's Health Solutions practice within the [Forensic & Litigation Consulting](#) segment has added [John Siedlecki](#) as a Senior Managing Director, based in Brentwood, Tenn.

Mr. Siedlecki, who brings more than 30 years of experience, will focus on helping hospitals improve operations and strengthen their overall financial performance. He specializes in working with hospitals and health systems to improve their planning and execution in order to attain their strategic goals and targets for revenue growth, revenue capture, efficiency, expense management, patient experience, quality and cash flow.

"John's experience nationally and internationally has enabled him to develop deep relationships and trust with healthcare executives, physicians, attorneys and other key industry players," said [Charles Overstreet](#), Global Leader of the Health Solutions practice at FTI Consulting. "His combined strategic capabilities, market access expertise and industry knowledge will enhance our ability to help clients create and build enterprise value in today's transforming environment."

Mr. Siedlecki has worked with academic health science centers, community hospitals, national health systems, integrated delivery systems, investor-owned companies and related businesses, all of which may face important challenges in an increasingly uncertain environment. He joins FTI Consulting from MedeAnalytics, Inc., where he focused primarily on business development.

Mr. Siedlecki previously was a Senior Vice President at Cambio Health Solutions, which was acquired by FTI Consulting in 2005.

"Changes related to the Affordable Care Act, risks associated with value-based reimbursement, rising interest rates and the need to harness the power of Big Data, among other issues, pose challenges for hospitals and health systems and can threaten their performance without an appropriate response," Mr. Siedlecki said. "The combination of the quality of the experts and the skill sets to help clients think broadly about these issues was a key reason I rejoined FTI Consulting."
