

FTI Consulting Expands E-discovery and Digital Forensics Leadership with Appointment of New Senior Managing Director in Chicago

December 16, 2019

David Meadows Brings Deep Technical Background and Project Leadership in Complex, High-Stakes Investigations and E-Discovery Matters

WASHINGTON, Dec. 16, 2019 (GLOBE NEWSWIRE) -- FTI Consulting, Inc. (NYSE: FCN) today announced the addition of [David Meadows](#), an expert in e-discovery and digital forensics, as a Senior Managing Director in the firm's [Technology](#) segment. Mr. Meadows is based in Chicago and will focus on helping clients reduce the cost and risk associated with e-discovery and investigations through FTI Consulting's innovative portfolio of technology offerings.

"Corporations and law firms turn to us for more innovative approaches to their complex and global challenges," said [Sophie Ross](#), Global Chief Executive Officer of FTI Technology. "We are dedicated to expanding our subject-matter expertise across every practice area with experienced problem solvers. David's addition to FTI Technology is a prime example of this commitment, and we welcome him to our deep bench of experts."

Mr. Meadows brings more than two decades of experience assisting clients with all aspects of technology in compliance, investigations and litigation. Current and past clients span domestic and global corporations in financial services, life sciences, communications, high technology, energy and mining industries. Prior to joining FTI Technology, he spent approximately 15 years in leadership positions at other major consulting firms, where he gained a broad technology background across complex data analysis, enterprise networking, software design and development and system implementations.

"FTI Technology stands out as a true leader in the industry for its commitment to innovation," Mr. Meadows said. "FTI Technology elevates e-discovery consulting and services by combining strong technical expertise and strategic guidance with innovative solutions that enhance and optimize the core functionality of today's leading tools. The consultants in our e-discovery and digital forensics practices are some of the best in the industry, and I'm honored to join them in expanding our practice and the solutions we bring forth for clients."

FTI Technology's e-discovery and digital forensics practices help clients meet their dynamic legal and regulatory challenges with innovative solutions. FTI Technology provides a strategic, systematic and economic approach to analyzing, collecting and investigating the full spectrum of modern data sources. Leveraging state-of-the-art forensic technology and methodologies, the FTI Technology team can address complex challenges in e-discovery and investigations, find and collect evidence in a defensible manner and provide expert testimony that clearly explains the evidence and methodology.
