

FTI Consulting Announces Re-signing of Senior Restructuring Personnel

June 28, 2006

Baltimore, MD - June 28, 2006

FTI Consulting, Inc. (NYSE: FCN), a premier provider of problem-solving consulting and technology services to major corporations, financial institutions and law firms, today announced that it had successfully completed its efforts to re-sign the senior managing directors who comprise the leadership of the restructuring practice acquired from PricewaterhouseCoopers in August of 2002. Of the thirty-one senior managing directors tendered contracts, twenty-seven have agreed to further long term commitments with FTI, two are leaving the business, and two have indicated their intent to join a competitor at the end of their contractual obligations to FTI, including non-competition obligations. The practice led by this group is the cornerstone of the Company's core restructuring business, which is the largest in the nation.

Commenting on these developments, Jack Dunn, FTI's President and CEO, said, "The example of these leading individuals committing their careers to FTI for the long haul not only reinforces the tremendous intellectual capital base that underlies the very core of our enterprise value, it reaffirms to the other great professionals, both inside and outside FTI, that we have built something to last here and that this is the place to be."

The standard commitment consists of a five year contract, plus a one-year non-competition period following its expiration. With the re-signing, nearly all of FTI's more than 165 senior managing directors company-wide are subject to multiple-year contractual agreements. The re-signings were achieved within the cost parameters previously disclosed in the company's prior public filings and with no loss of existing engagements.
