

## FTI Consulting Shares Thought Leadership on Key E-Discovery Trends at LegalTech New York Conference

January 28, 2011

### February 1st Educational Sessions Address Predictive Coding, Multinational Discovery, and Emerging Data Types in E-Discovery

NEW YORK, Jan. 28, 2011 /PRNewswire via COMTEX/ -- [FTI Consulting](#), Inc. (NYSE: FCN), the global business advisory firm dedicated to helping organizations protect and enhance their enterprise value, today announced that its [FTI Technology](#) business segment will present on key e-discovery issues during three educational sessions at the [LegalTech New York](#) conference next week. Legal practitioners can earn up to 4.5 continuing legal education (CLE) credits from most states by attending each of the three sessions on February 1st at the New York Hilton.

"The sessions provide a close look at several emerging and transformative e-discovery trends, including navigating data privacy regulations around the world, recent advances in review technology, and handling new data types such as social media and Microsoft SharePoint," said Mike Kinnaman, a senior managing director in the FTI Technology business segment. "Each session features an all-star panel of practitioners from corporations, law firms and analyst firms to share their insights and actionable advice for reducing e-discovery costs in a safe and defensible manner."

The panel sessions, all to be held in the Trianon Ballroom of the New York Hilton, are:

- **Multinational Discovery: Privacy and Process**, 10:30-11:45 am ET. The [panel](#), moderated by [Joe Looby](#), a senior managing director in the FTI Technology business segment, will discuss:
  - The evolving data privacy regulatory environment, including in Europe, AsiaPac and South America
  - Common cross border scenarios and key "do's and don'ts" for maintaining data privacy compliance
  - Best practices for multinational discovery and additional resources

For additional information on multinational data discovery, please download the RAND Europe report [E-Discovery and Legal Frameworks in Europe](#).

- **Cloud, SharePoint and Social Media: Discovery on the Next Data Frontier**, 2:00-3:15 pm ET. The [panel](#), moderated by [Larry Braggi](#), a managing director in the FTI Technology business segment, will discuss:
  - The basic technical challenges for collecting, reviewing and producing relevant data from the cloud, SharePoint or social media sites
  - Recent case law involving these new data types
  - Best practices for managing these new data types as part of a holistic information management program

For additional information on the challenges Microsoft SharePoint presents for e-discovery, please download the Enterprise Strategy Group whitepaper [Incorporating SharePoint into Electronic Discovery Processes](#).

- **Predictive Coding: What You Need to Know**, 3:45-5:00 pm ET. The [panel](#), moderated by [Manfred Gabriel](#), a managing director in the FTI Technology business segment, will discuss:
  - An overview of the different types of computer-assisted review or "predictive" coding offerings available, including suggested coding, and how each differs from more traditional legal review technology
  - The processes needed to supplement the use of computer-assisted coding as part of a defensible legal review workflow
  - Key challenges for selecting and implementing computer-assisted technology, including the role of the review attorneys

For additional information on how advanced suggested coding technology assisted in a recent legal review, please download the webinar of [A Smarter Way: Acuity All-in-One Review](#).

Each session will feature interactive polling of session attendees, as well as opportunities to win prizes by answering survey questions via [Twitter](#) using the #FTILTNY hashtag. In addition to these educational sessions, FTI Technology will be providing product demos in booth 2100 at the LegalTech New York 2011 conference.
