## **ITEM 2.02. Results of Operations and Financial Condition**

FTI Consulting, Inc. (“FTI Consulting”) uses a presentation from time to time in its discussions with investors and analysts (the “Presentation”). The Presentation includes FTI Consulting’s past and present financial results, operating data and other information. A copy of the Presentation is furnished as Exhibit 99.1 and has been posted to the FTI Consulting website at [www.fticonsulting.com](http://www.fticonsulting.com).

## **ITEM 7.01. Regulation FD Disclosure**

In the Presentation, FTI Consulting uses information derived from consolidated and segment financial information that may not be presented in its financial statements or prepared in accordance with generally accepted accounting principles in the United States (“GAAP”). Certain of these measures are considered “non-GAAP financial measures” under rules promulgated by the Securities and Exchange Commission. Specifically, FTI Consulting has referred to the following non-GAAP measures:

- Total Segment Operating Income
- Adjusted EBITDA
- Total Adjusted Segment EBITDA
- Adjusted EBITDA Margin
- Adjusted Net Income
- Adjusted Earnings per Diluted Share
- Free Cash Flow

FTI Consulting has included the definitions of “Segment Operating Income (Loss)” and “Adjusted Segment EBITDA,” which are financial measures presented in accordance with GAAP, in order to more fully define the components of certain non-GAAP financial measures. FTI Consulting evaluates the performance of its operating segments based on Adjusted Segment EBITDA, and Segment Operating Income (Loss) is a component of the definition of Adjusted Segment EBITDA. FTI Consulting defines “Segment Operating Income (Loss)” as a segment’s share of consolidated operating income. FTI Consulting defines “Total Segment Operating Income (Loss),” which is a non-GAAP financial measure, as the total of Segment Operating Income for all segments, which excludes unallocated corporate expenses. FTI Consulting uses Segment Operating Income for the purpose of calculating Adjusted Segment EBITDA. FTI Consulting defines “Adjusted Segment EBITDA” as a segment’s share of consolidated operating income before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges.

FTI Consulting uses Adjusted Segment EBITDA as a basis to internally evaluate the financial performance of its segments because FTI Consulting believes it reflects current core operating performance and provides an indicator of the segment’s ability to generate cash.

FTI Consulting defines “Total Adjusted Segment EBITDA,” which is a non-GAAP financial measure, as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. FTI Consulting defines “Adjusted EBITDA,” which is a non-GAAP financial measure, as consolidated net income before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. FTI Consulting defines Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of total revenues. FTI Consulting believes that the non-GAAP financial measures, which exclude the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges, when considered together with its GAAP financial results and GAAP financial measures, provide management and investors with a more complete understanding of FTI Consulting’s operating results, including underlying trends. In addition, EBITDA is a common alternative measure of operating performance used by many of FTI Consulting’s competitors. It is used by investors, financial analysts, rating agencies and others to value and

compare the financial performance of companies in FTI Consulting's industry. Therefore, FTI Consulting also believes that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of its operating results with the operating results of other companies.

FTI Consulting defines "Adjusted Net Income" and "Adjusted Earnings per Diluted Share" ("Adjusted EPS"), which are non-GAAP financial measures, as net income (loss) and earnings (loss) per diluted share, respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges, losses on early extinguishment of debt, non-cash interest expense on convertible notes, gain or loss on sale of a business and the adjustment related to the impact of adopting the 2017 U.S. Tax Cuts and Jobs Act (the "2017 Tax Act"). FTI Consulting uses Adjusted Net Income for the purpose of calculating Adjusted EPS. Management of FTI Consulting uses Adjusted EPS to assess total company operating performance on a consistent basis. FTI Consulting believes that this non-GAAP financial measure, which excludes the effects of the remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges, losses on early extinguishment of debt, non-cash interest expense on convertible notes, gain or loss on sale of a business and the adjustment related to the adoption of the 2017 Tax Act, when considered together with its GAAP financial results, provides management and investors with an additional understanding of its business operating results, including underlying trends.

FTI Consulting defines "Free Cash Flow" as net cash provided by (used in) operating activities less cash payments for purchases of property and equipment. We believe this non-GAAP financial measure, when considered together with our GAAP financial results, provides management and investors with an additional understanding of FTI Consulting's ability to generate cash for ongoing business operations and other capital deployment.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable with other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in FTI Consulting's Consolidated Statements of Comprehensive Income. Reconciliations of non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the Presentation.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.

## Cautionary Note about Forward-Looking Statements

---

*This presentation includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve uncertainties and risks. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues, future results and performance, expectations, plans or intentions relating to acquisitions, share repurchases and other matters, business trends and other information that is not historical, including statements regarding estimates of our future financial results. When used in this presentation, words such as “estimates,” “expects,” “anticipates,” “projects,” “plans,” “intends,” “believes,” “forecasts” and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, estimates of our future financial results, are based upon our expectations at the time we make them and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management’s expectations, beliefs and estimates will be achieved, and the Company’s actual results may differ materially from our expectations, beliefs and estimates. Further, preliminary results are subject to normal year-end adjustments. The Company has experienced fluctuating revenues, operating income and cash flows in prior periods and expects that this will occur from time to time in the future. Other factors that could cause such differences include declines in demand for, or changes in, the mix of services and products that we offer, the mix of the geographic locations where our clients are located or where services are performed, fluctuations in the price per share of our common stock, adverse financial, real estate or other market and general economic conditions, and other future events, which could impact each of our segments differently and could be outside of our control, the pace and timing of the consummation and integration of future acquisitions, the Company’s ability to realize cost savings and efficiencies, competitive and general economic conditions, retention of staff and clients, new laws and regulations, or changes thereto, including the 2017 U.S. Tax Cuts and Jobs Act (“2017 Tax Act”), and the risks described under the heading “Item 1A, Risk Factors” in the Company’s annual report on Form 10-K for the year ended December 31, 2017 filed with the Securities and Exchange Commission (“SEC”), including the risks set forth under “Risks Related to Our Reportable Segments” and “Risks Related to Our Operations,” the risks described under the heading “Part II, Item 1A, Risk Factors” in the Company’s quarterly report on Form 10-Q for the quarter ended September 30, 2018 filed with the SEC, and in the Company’s other filings with the SEC. We are under no duty to update any of the forward-looking statements to conform such statements to actual results or events and do not intend to do so.*

## Medium-Term Growth Opportunities

Enhance **Business Transformation and Transaction** capabilities

Grow **Restructuring** globally

**Deeper penetration of key industries** e.g., Retail, Healthcare, TMT, Industrials, Automotive and Energy

## Q3 2018 Key Financial Commentary

- **Revenues** increased \$7.3 million, or 5.7%, from Q3 2017 to Q3 2018. The revenue increase was driven by increased demand in our business transformation and transaction services in North America and EMEA, partially offset by lower success fees.
- **Gross profit** increased \$1.5 million, or 3.3%, from Q3 2017 to Q3 2018. Gross profit margin decreased 0.8 percentage points from Q3 2017 to Q3 2018. This decrease in gross profit margin was primarily due to an increase in salary expense related to strategic hires as well as an increase in variable compensation.
- **Adjusted Segment EBITDA** was \$26.8 million, or 19.8% of segment revenues, compared to \$26.7 million, or 20.9% of segment revenues, in the prior year.

The Forensic & Litigation Consulting segment provides a complete range of multidisciplinary, independent dispute advisory, investigative, data acquisition/analysis and forensic accounting services. Our professionals combine end-to-end capabilities when clients face high stakes litigation, arbitration and compliance investigations and regulatory scrutiny.

### Medium-Term Growth Opportunities

Enhance **Construction Solutions, Cybersecurity and Data & Analytics** capabilities

**Grow overseas businesses** e.g., London and Hong Kong

**Improve utilization** in Disputes, Investigations and Health Solutions practices

### Q3 2018 Key Financial Commentary

- **Revenues** increased \$8.0 million, or 6.8%, from Q3 2017 to Q3 2018. The increase was driven by higher demand in our construction solutions practice globally, in other disputes and in our investigations practice, primarily in North America and EMEA, partially offset by lower demand in our health solutions practice.
- **Gross profit** increased \$2.0 million, or 4.6%, from Q3 2017 to Q3 2018. Gross profit margin decreased 0.8 percentage points from Q3 2017 to Q3 2018. The decrease in gross profit margin is related to lower utilization in health solutions, partially offset by increased utilization due to higher demand in our construction solutions practice globally and our investigations practice in North America.
- **Adjusted Segment EBITDA** was \$22.0 million, or 17.3% of segment revenues, compared to \$22.5 million, or 19.0% of segment revenues, in the prior year.

## Economic Consulting (continued)

### Segment Offering

The Economic Consulting segment, including subsidiary Compass Lexecon, provides analysis of complex economic issues. We help our clients with legal, regulatory and international arbitration proceedings; strategic decision making; and public policy debates around the world. We deliver sophisticated economic analysis and modeling of issues arising in M&A transactions, complex antitrust litigation, commercial disputes, international arbitration, regulatory proceedings and a wide range of securities litigation. Our statistical and economic experts help clients analyze complex economic issues, such as the economic impact of deregulation on a particular industry or the amount of damages suffered by a business as a result of particular events.

### Medium-Term Growth Opportunities

**Maintain leading position** of Compass Lexecon in the U.S.

**Grow overseas businesses** e.g., EMEA, Australia and Asia

**Develop adjacent businesses in the U.S.** e.g., International Arbitration, Energy, Healthcare, TMT and Financial Services

### Q3 2018 Key Financial Commentary

- **Revenues** increased \$27.4 million, or 24.5%, from Q3 2017 to Q3 2018. The increase was primarily due to higher demand for antitrust services in EMEA and North America and financial economics services in North America.
- **Gross profit** increased \$10.8 million, or 39.0%, from Q3 2017 to Q3 2018. Gross profit margin increased 2.9 percentage points from Q3 2017 to Q3 2018. The increase in gross profit margin was primarily due to an increase in utilization, resulting from higher global demand.
- **Adjusted Segment EBITDA** was \$23.2 million, or 16.7% of segment revenues, compared to \$12.1 million, or 10.8% of segment revenues, in the prior year.

## Technology (continued)

### Segment Offering

Our Technology segment provides corporations and law firms with a comprehensive and global portfolio of consulting and services for information governance, privacy and security, electronic discovery ("e-discovery") and insight analytics. Our consulting expertise enables clients to more confidently govern, secure, find, analyze and rapidly understand their data in the context of compliance and risk.

### Medium-Term Growth Opportunities

**Expand addressable market through new distribution channels** for Consulting & Services

**Invest in new and adjacent services** e.g., Information Governance, Privacy & Security Services and Contract Intelligence

**Grow overseas businesses** e.g., Europe, Middle East and India

### Q3 2018 Key Financial Commentary

- **Revenues** increased \$14.4 million, or 34.1%, from Q3 2017 to Q3 2018. The increase was primarily driven by increased demand for our managed review services, largely as a result of an increase in M&A-related second request services.
- **Gross profit** increased \$5.4 million, or 30.1%, from Q3 2017 to Q3 2018. Gross profit margin decreased by 1.3 percentage points from Q3 2017 to Q3 2018. The decrease in gross profit margin was due to lower pricing for higher margin hosting services, partially offset by a higher demand for managed review services.
- **Adjusted Segment EBITDA** was \$11.5 million, or 20.2% of segment revenues, compared to \$6.0 million, or 14.1% of segment revenues, in the prior year.

## FTI Consulting Non-GAAP Financial Measures

In this presentation, we sometimes use information derived from consolidated and segment financial information that may not be presented in our financial statements or prepared in accordance with generally accepted accounting principles ("GAAP"). Certain of these measures are considered "non-GAAP financial measures" under the Securities and Exchange Commission ("SEC") rules. Specifically, we have referred to the following non-GAAP financial measures in this presentation:

- Total Segment Operating Income
- Adjusted EBITDA
- Total Adjusted Segment EBITDA
- Adjusted EBITDA Margin
- Adjusted Net Income
- Adjusted Earnings per Diluted Share
- Free Cash Flow

We have included the definitions of Segment Operating Income and Adjusted Segment EBITDA below in order to more fully define the components of certain non-GAAP financial measures in this presentation. We define Segment Operating Income as a segment's share of Consolidated Operating Income. We define Total Segment Operating Income, a non-GAAP financial measure, as the total of Segment Operating Income for all segments, which excludes unallocated corporate expenses. We use Segment Operating Income for the purpose of calculating Adjusted Segment EBITDA. We define Adjusted Segment EBITDA as a segment's share of Consolidated Operating Income before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. We use Adjusted Segment EBITDA as a basis to internally evaluate the financial performance of our segments because we believe it reflects current core operating performance and provides an indicator of the segment's ability to generate cash. We define Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of total revenues.

We define Total Adjusted Segment EBITDA, which is a non-GAAP financial measure, as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. We define Adjusted EBITDA, which is a non-GAAP financial measure, as consolidated net income before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We believe that the non-GAAP financial measures, which exclude the effects of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt, when considered together with our GAAP financial results and GAAP measures, provide management and investors with a more complete understanding of our operating results, including underlying trends. In addition, EBITDA is a common alternative measure of operating performance used by many of our competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in our industry. Therefore, we also believe that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of our operating results with the operating results of other companies.

We define Adjusted Net Income and Adjusted Earnings per Diluted Share ("Adjusted EPS"), which are non-GAAP financial measures, as net income and earnings per diluted share ("EPS"), respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges, losses on early extinguishment of debt, non-cash interest expense on convertible notes, gain or loss on sale of a business and the impact of adopting the 2017 U.S. Tax Cuts and Jobs Act ("2017 Tax Act"). We use Adjusted Net Income for the purpose of calculating Adjusted EPS. Management uses Adjusted EPS to assess total Company operating performance on a consistent basis. We believe that this non-GAAP financial measure, which excludes the effects of the remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges, losses on early extinguishment of debt, non-cash interest expense on convertible notes, gain or loss on sale of a business and the impact of adopting the 2017 Tax Act, when considered together with our GAAP financial results, provides management and investors with an additional understanding of our business operating results, including underlying trends.

We define Free Cash Flow as net cash provided by operating activities less cash payments for purchases of property and equipment. We believe this non-GAAP financial measure, when considered together with our GAAP financial results, provides management and investors with an additional understanding of the Company's ability to generate cash for ongoing business operations and other capital deployment.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable with other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in our Condensed Consolidated Statements of Comprehensive Income.
