Current Investor Presentation

Cautionary Note about Forward-Looking Statements

This presentation includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve uncertainties and risks. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues, future results and performance, expectations, plans or intentions relating to acquisitions, share repurchases and other matters, business trends and other information that is not historical, including statements regarding estimates of our future financial results. When used in this presentation, words such as "estimates," "expects," "anticipates," "projects," "plans," "intends," "believes," "forecasts" and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, estimates of our future financial results, are based upon our expectations at the time we make them and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management's expectations, beliefs and estimates will be achieved, and the Company's actual results may differ materially from our expectations, beliefs and estimates. Further, preliminary results are subject to normal year-end adjustments. The Company has experienced fluctuating revenues, operating income and cash flows in prior periods and expects that this will occur from time to time in the future. Other factors that could cause such differences include declines in demand for, or changes in, the mix of services and products that we offer, the mix of the geographic locations where our clients are located or where services are performed, fluctuations in the price per share of our common stock, adverse financial, real estate or other market and general economic conditions, and other future events, which could impact each of our segments differently and could be outside of our control, the pace and timing of the consummation and integration of future acquisitions, the Company's ability to realize cost savings and efficiencies, competitive and general economic conditions, retention of staff and clients, new laws and regulations, or changes thereto, including the 2017 U.S. Tax Cuts and Jobs Act, and the risks described under the heading "Part I, Item 1A Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2018, filed with the Securities and Exchange Commission ("SEC") and in the Company's other filings with the SEC, including the risks set forth under "Risks Related to Our Reportable Segments" and "Risks Related to Our Operations." We are under no duty to update any of the forward-looking statements to conform such statements to actual results or events and do not intend to do so.

Investment Thesis

Leading global business advisory firm with **strong people** and **strong positions**: corporations, law firms and governments come to us when there is a critical need

Organic growth strategy with an emphasis on profitable revenue growth

Committed to building a profitable business with **sustainable underlying growth**, regardless of economic conditions

Willingness to invest EBITDA in key growth areas where we have a right to win

Healthy balance sheet and strong cash flows with a commitment to return capital to our stockholders

Believe we are on a path toward sustained double-digit year-over-year Adjusted EPS growth over time

Corporate Finance & Restructuring (continued)

Segment Offering

The Corporate Finance & Restructuring segment focuses on strategic, operational, financial and capital needs of businesses by addressing the full spectrum of financial and transactional challenges faced by companies, boards, private equity sponsors, creditor constituencies and other stakeholders.

Medium-Term Growth Opportunities

Enhance **Business Transformation and Transactions** capabilities

Grow Restructuring globally

Deeper penetration of key industries e.g., Retail, Healthcare, TMT, Industrials, Automotive and Energy

Q2 2019 Key Financial Commentary

Revenues increased \$48.6 million, or 34.4%, from Q2 2018 to Q2 2019, which included a 1.6% estimated negative impact from FX. Excluding the estimated negative impact from FX, revenues increased \$50.9 million, or 36.0%. The increase in revenues was primarily due to increased demand and higher realized rates driven by the mix of client engagements and staffing for business transformation and transactions and restructuring services, coupled with a \$15.4 million increase in success fees compared to the prior year.

Gross profit increased \$20.6 million, or 36.2%, from Q2 2018 to Q2 2019. Gross profit margin increased 0.5 percentage points from Q2 2018 to Q2 2019. The increase was due to higher margins from improved realization and an increase in success fees, partially offset by higher compensation, primarily related to an increase in variable compensation and billable headcount.

Adjusted Segment EBITDA was \$50.5 million, or 26.6% of segment revenues, compared to \$35.8 million, or 25.3% of segment revenues, in the prior year.

Forensic and Litigation Consulting (continued)

Segment Offering

The Forensic & Litigation Consulting segment provides a complete range of multidisciplinary, independent dispute advisory, investigative, data acquisition/analysis and forensic accounting services. Our professionals combine end-to-end capabilities when clients face high stakes litigation, arbitration and compliance investigations and regulatory scrutiny.

Medium-Term Growth Opportunities

Enhance Construction Solutions, Cybersecurity and Data & Analytics capabilities

Grow overseas businesses e.g., London and Hong Kong

Strong utilization in Disputes, Investigations and Health Solutions practices

Q2 2019 Key Financial Commentary

Revenues increased \$12.3 million, or 9.2%, from Q2 2018 to Q2 2019, which included a 1.2% estimated negative impact from FX. Excluding the estimated negative impact from FX, revenues increased \$14.0 million, or 10.5%, primarily due to higher demand for our health solutions, construction solutions and disputes services.

Gross profit increased \$6.1 million, or 12.3%, from Q2 2018 to Q2 2019. Gross profit margin increased 1.1 percentage points from Q2 2018 to Q2 2019. The increase in gross profit margin is related to higher revenues with improved utilization in our health solutions practice, partially offset by lower utilization in our investigations practice.

Adjusted Segment EBITDA was \$28.2 million, or 19.4% of segment revenues, compared to \$27.6 million, or 20.7% of segment revenues, in the prior year.

Economic Consulting (continued)

Segment Offering

The Economic Consulting segment, including subsidiary Compass Lexecon, provides analysis of complex economic issues. We help our clients with legal, regulatory and international arbitration proceedings; strategic decision making and public policy debates around the world. We deliver sophisticated economic analysis and modeling of issues arising in M&A transactions, complex antitrust litigation, commercial disputes, international arbitration, regulatory proceedings and a wide range of securities litigation. Our statistical and economic experts help clients analyze complex economic issues, such as the economic impact of deregulation on a particular industry or the amount of damages suffered by a business as a result of particular events.

Medium-Term Growth Opportunities

Maintain leading position of Compass Lexecon in the U.S.

Grow overseas businesses e.g., EMEA, Australia and Asia

Develop adjacent businesses in the U.S. e.g., International Arbitration, Energy, Healthcare, TMT and Financial Services

Q2 2019 Key Financial Commentary

Revenues increased \$22.2 million, or 16.6%, from Q2 2018 to Q2 2019, which included a 1.5% estimated negative impact from FX. Excluding the estimated negative impact of FX, revenues increased \$24.2 million, or 18.2%, primarily due to higher demand for our antitrust services in North America and Europe, the Middle East and Africa ("EMEA").

Gross profit increased \$6.5 million, or 19.6%, from Q2 2018 to Q2 2019. Gross profit margin increased 0.6 percentage points from Q2 2018 to Q2 2019. The increase in gross profit margin was primarily due to higher utilization in North America and EMEA, partially offset by an increase in variable compensation.

Adjusted Segment EBITDA was \$23.3 million, or 15.0% of segment revenues, compared to \$15.5 million, or 11.6% of segment revenues, in the prior year.

Technology (continued)

Segment Offering

Our Technology segment provides corporations and law firms with a comprehensive and global portfolio of consulting and services for information governance, privacy and security, electronic discovery ("e-discovery") and insight analytics. Our consulting expertise enables clients to more confidently govern, secure, find, analyze and rapidly understand their data in the context of compliance and risk.

Medium-Term Growth Opportunities

Expand addressable market through new distribution channels for Consulting & Services

Invest in new and adjacent services e.g., Information Governance, Privacy & Security Services and Contract Intelligence

Grow overseas businesses e.g., Europe, the Middle East and India

Q2 2019 Key Financial Commentary

Revenues increased \$9.2 million, or 19.8%, from Q2 2018 to Q2 2019, which included a 1.3% estimated negative impact from FX. Excluding the estimated negative impact from FX, revenues increased \$9.8 million, or 21.2%, due to an overall increase in demand across our managed review and consulting services, largely driven by work associated with global cross-border investigations.

Gross profit increased \$4.6 million, or 23.6%, from Q2 2018 to Q2 2019. Gross profit margin increased by 1.3 percentage points from Q2 2018 to Q2 2019. The increase in gross profit margin was primarily due to an increased mix of higher-margin managed review services.

Adjusted Segment EBITDA was \$12.9 million, or 23.1% of segment revenues, compared to \$7.5 million, or 16.2% of segment revenues, in the prior year.

Strategic Communications (continued)

Segment Offering

The Strategic Communications segment provides a comprehensive view of strategic communications with an integrated suite of services, including financial communications, corporate reputation, transaction communications and public affairs in all the major markets around the world.

Medium-Term Growth Opportunities

Further develop large, complex client relationships

Enhance market share in highly regulated industries e.g., Financial Services, Energy, Healthcare, Industrials and TMT

Leverage FTI Consulting's services and platform to enhance client results

Q2 2019 Key Financial Commentary

Revenues increased \$1.6 million, or 2.8%, from Q2 2018 to Q2 2019, which included a 3.3% estimated negative impact from FX. Excluding the estimated negative impact of FX, revenues increased \$3.5 million, or 6.1%, primarily due to higher demand for our project-based corporate reputation services in North America.

Gross profit increased \$0.3 million, or 1.2%, from Q2 2018 to Q2 2019. Gross profit margin decreased 0.6 percentage points from Q2 2018 to Q2 2019.

Adjusted Segment EBITDA was \$10.5 million, or 17.7% of segment revenues, compared to \$11.0 million, or 19.1% of segment revenues, in the prior year.

¹See "End Notes: FTI Consulting Non-GAAP Financial Measures" for the definitions of Adjusted Net Income and Adjusted Earnings Per Diluted Share, which are non-GAAP financial measures.

²For Q1 2019, represents a discrete tax adjustment resulting from a change in estimate related to the accounting for the sale of the Ringtail software and related business ("Ringtail") in September 2018.

Reconciliation of Net Income to Total Adjusted Segment EBITDA

(in thousands)	Q2 2019
Net Income	\$64,598
Add back:	
Income tax provision	21,313
Interest income and other	(2,609)
Interest expense	4,793
Unallocated corporate expense	28,892
Segment depreciation expense	6,556
Amortization of intangible assets	1,852
Total Adjusted Segment EBITDA ¹	\$125,395

Reconciliation of Net Cash Provided by (Used in) Operating Activities to Free Cash Flow

(in thousands)	Q2 2019	Q1 2019	Q2 2018
Net cash provided by (used in) operating activities	\$47,648	\$(102,086)	\$34,615
Purchases of property and equipment	(10,508)	(10,153)	(8,540)
Free Cash Flow ¹	\$37,140	\$(112,239)	\$26,075

Reconciliation of Full Year 2019 EPS Guidance to Adjusted EPS Guidance

	Year Ended Dec	ember 31, 2019
	Low	High
Guidance on estimated earnings per common share - diluted (GAAP) ¹	\$4.88	\$5.38
Non-cash interest expense on convertible notes, net of tax	0.17	0.17
Tax impact of gain on sale of business ²	(0.05)	(0.05)
Guidance on estimated adjusted earnings per common share – diluted (Non-GAAP) ¹	\$5.00	\$5.50

¹ The forward-looking guidance on estimated full year 2019 EPS and Adjusted EPS does not reflect other gains and losses (all of which would be excluded from Adjusted EPS) related to the future impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges, losses on early extinguishment of debt and gain or loss on sale of a business as these items are dependent on future events that are uncertain and difficult to predict. The forward-looking guidance excludes any shares of common stock potentially issuable upon conversion of the 2023 Convertible Notes from the calculation of EPS.

² Represents a discrete tax adjustment resulting from a change in estimate related to the accounting for the sale of Ringtail in September 2018.

End NotesFTI Consulting Non-GAAP Financial Measures

In this presentation, we sometimes use information derived from consolidated and segment financial information that may not be presented in our financial statements or prepared in accordance with generally accepted accounting principles ("GAAP"). Certain of these measures are considered "non-GAAP financial measures" under the Securities and Exchange Commission ("SEC") rules. Specifically, we have referred to the following non-GAAP financial measures in this presentation:

- Adjusted EBITDA
- Total Adjusted Segment EBITDA
- Adjusted EBITDA Margin
- Adjusted Net Income
- Adjusted Earnings per Diluted Share
- Free Cash Flow

We have included the definitions of Segment Operating Income and Adjusted Segment EBITDA below in order to more fully define the components of certain non-GAAP financial measures in this presentation. We define Segment Operating Income, a GAAP financial measure, as a segment's share of consolidated operating income. We use Segment Operating Income for the purpose of calculating Adjusted Segment EBITDA. We define Adjusted Segment EBITDA, a GAAP financial measure, as a segment's share of consolidated operating income before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. We use Adjusted Segment EBITDA as a basis to internally evaluate the financial performance of our segments because we believe it reflects current core operating performance and provides an indicator of the segment's ability to generate cash. We define Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of total revenues.

We define Total Adjusted Segment EBITDA, which is a non-GAAP financial measure, as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. We define Adjusted EBITDA, which is a non-GAAP financial measure, as consolidated net income before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges, gain or loss on sale of a business and losses on early extinguishment of debt. We believe that these non-GAAP financial measures, when considered together with our GAAP financial results and GAAP financial measures, provide management and investors with a more complete understanding of our operating results, including underlying trends. In addition, EBITDA is a common alternative measure of operating performance used by many of our competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in our industry. Therefore, we also believe that these measures, considered along with corresponding GAAP financial measures, provide management and investors with additional information for comparison of our operating results with the operating results of other companies.

We define Adjusted Net Income and Adjusted Earnings per Diluted Share ("Adjusted EPS"), which are non-GAAP financial measures, as net income and earnings per diluted share ("EPS"), respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges, losses on early extinguishment of debt, non-cash interest expense on convertible notes, gain or loss on sale of a business and the impact of adopting the 2017 U.S. Tax Cuts and Jobs Act (the "2017 Tax Act"). We use Adjusted Net Income for the purpose of calculating Adjusted EPS. Management uses Adjusted EPS to assess total Company operating performance on a consistent basis. We believe that these non-GAAP financial measures, when considered together with our GAAP financial results, provide management and investors with an additional understanding of our business operating results, including underlying trends.

We define Free Cash Flow, which is a non-GAAP financial measure, as net cash provided by operating activities less cash payments for purchases of property and equipment. We believe this non-GAAP financial measure, when considered together with our GAAP financial results, provides management and investors with an additional understanding of the Company's ability to generate cash for ongoing business operations and other capital deployment.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable with other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in our Consolidated Statements of Comprehensive Income.
