**Item 7.01. Regulation FD Disclosure.**

FTI Consulting, Inc. (“FTI Consulting”) uses a presentation from time to time in its discussions with investors (the “Presentation”). The Presentation includes FTI Consulting’s past and present financial results, operating data and other information. A copy of the Presentation is furnished as Exhibit 99.1 and has been posted to the FTI Consulting website at [www.fticonsulting.com](http://www.fticonsulting.com).

The Presentation includes information regarding Segment Operating Income, Total Segment Operating Income, Adjusted EBITDA, Adjusted Segment EBITDA, Total Adjusted Segment EBITDA, Adjusted EBITDA Margin, Adjusted Segment EBITDA Margin, Adjusted Net Income and Adjusted Earnings per Share (“Adjusted EPS”).

FTI Consulting defines “Segment Operating Income (Loss)” as a segment’s share of consolidated operating income (loss). FTI Consulting defines “Total Segment Operating Income (Loss)” as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. FTI Consulting uses Segment Operating Income (Loss) for the purpose of calculating Adjusted Segment EBITDA. FTI Consulting defines “Adjusted EBITDA” as consolidated net income (loss) before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt, “Adjusted Segment EBITDA” as a segment’s share of consolidated operating income (loss) before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges, and “Total Adjusted Segment EBITDA” as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. FTI Consulting defines “Adjusted Segment EBITDA Margin” as Adjusted Segment EBITDA as a percentage of a segment’s share of revenue. Although Adjusted EBITDA, Adjusted Segment EBITDA Total Adjusted Segment EBITDA and Adjusted Segment EBITDA Margin are not measures of financial condition or performance determined in accordance with U.S. generally accepted accounting principles (“GAAP”), FTI Consulting believes that they can be useful supplemental measures which reflect current core operating performance and/or provides an indicator of the segment’s ability to generate cash. FTI Consulting also believes that these non-GAAP measures, when considered together with GAAP financial results, provide management and investors with a more complete understanding of FTI Consulting’s operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. In addition, EBITDA and Adjusted EBITDA are common alternative measures of operating performance used by many of FTI Consulting’s competitors. They are used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in FTI Consulting’s industry. Therefore, FTI Consulting also believes that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of its operating results to the operating results of other companies.

FTI Consulting defines “Adjusted Net Income” and “Adjusted Earnings per Diluted Share” (“Adjusted EPS”) as net income (loss) and earnings per diluted share, respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. FTI Consulting uses Adjusted Net Income for the purpose of calculating Adjusted EPS and uses Adjusted EPS to assess total FTI Consulting operating performance on a consistent basis. FTI Consulting believes that this non-GAAP measure, when considered together with its GAAP financial results, provides management and investors with a more complete understanding of its business operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in FTI Consulting’s Consolidated Statements of Comprehensive Income. Reconciliations of GAAP to non-GAAP financial measures are included in the Presentation.

The Presentation may contain forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are necessarily based on certain assumptions as of the date such forward-looking statements were made and are subject to significant risks and uncertainties. FTI Consulting does not undertake any responsibility for the adequacy, accuracy or completeness or to update any of these statements in the future. Actual future performance and results could differ from that contained in or suggested by the forward-looking statements.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.

# FTI Consulting, Inc.

*Fourth Quarter and Fiscal 2015 Earnings Conference Call*

## Cautionary Note About Forward-Looking Statements

---

*This presentation includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve uncertainties and risks. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues, future results and performance, expectations, plans or intentions relating to acquisitions and other matters, business trends and other information that is not historical, including statements regarding estimates of our medium-term growth targets or other future financial results. When used in this press release, words such as "anticipates," "aspirational," "estimates," "expects," "goals," "intends," "believes," "forecasts," "targets," "objectives" and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, estimates of our future financial results, are based upon our expectations at the time we make them and various assumptions. Our expectations, beliefs, projections and growth targets are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management's expectations, beliefs, estimates or growth targets will be achieved, and the Company's actual results may differ materially from our expectations, beliefs, estimates and growth targets. The Company has experienced fluctuating revenues, operating income and cash flow in prior periods and expects that this will occur from time to time in the future. Other factors that could cause such differences include declines in demand for, or changes in, the mix of services and products that we offer, the mix of the geographic locations where our clients are located or where services are performed, adverse financial, real estate or other market and general economic conditions, which could impact each of our segments differently, the pace and timing of the consummation and integration of past and future acquisitions, the Company's ability to realize cost savings and efficiencies, competitive and general economic conditions, retention of staff and clients and other risks described under the heading "Item 1A Risk Factors" in the Company's most recent Form 10-K filed with the SEC and in the Company's other filings with the SEC, including the risks set forth under "Risks Related to Our Reportable Segments" and "Risks Related to Our Operations." We are under no duty to update any of the forward looking statements to conform such statements to actual results or events and do not intend to do so.*

## End Notes

# FTI Consulting Non-GAAP Data Reconciliations

We define Adjusted Net Income and Adjusted Earnings per Diluted Share ("Adjusted EPS") as Net Income and Earnings Per Diluted Share, respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We use Adjusted Net Income for the purpose of calculating Adjusted EPS. Management uses Adjusted EPS to assess total Company operating performance on a consistent basis. We believe that this measure, when considered together with our GAAP financial results, provides management and investors with a more complete understanding of our business operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt.

We define Segment Operating Income (loss) as a segment's share of consolidated operating income (loss). We define Total Segment Operating Income (loss) as the total of Segment Operating Income (loss) for all segments, which excludes unallocated corporate expenses. We use Segment Operating Income (loss) for the purpose of calculating Adjusted Segment EBITDA (loss). We define Adjusted EBITDA as consolidated net income (loss) before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We define Adjusted Segment EBITDA as a segment's share of consolidated operating income (loss) before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. We define Total Adjusted Segment EBITDA as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. We define Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of total revenues. We define Adjusted Segment EBITDA margin as Adjusted Segment EBITDA as a percentage of a segment's share of revenue. We use Adjusted Segment EBITDA to internally evaluate the financial performance of our segments because we believe it is a useful supplemental measure which reflects current core operating performance and provides an indicator of the segment's ability to generate cash. We also believe that these measures, when considered together with our GAAP financial results, provide management and investors with a more complete understanding of our operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges, and goodwill impairment charges. In addition, EBITDA and Adjusted EBITDA are common alternative measures of operating performance used by many of our competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in our industry. Therefore, we also believe that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of our operating results to the operating results of other companies.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in our Consolidated Statements of Comprehensive Income (loss).

# Appendix

## Fourth Quarter 2015 Awards & Accolades

FTI Consulting maintained top position on **Global Arbitration Review's 2016 International Who's Who of Commercial Arbitration list** with 34 Expert Witnesses, representing the most professionals ever recognized in one firm

Chris Osborne and James Nicholson named to **Global Arbitration Review's Most Highly Regarded Individuals list** in Europe, which recognizes the five most highly regarded individuals in this region

**FTI Technology Receives Highest Product Score for Ringtail** in Legal Review, One of Three Use Cases, in the 2015 "**Gartner Critical Capabilities for E-Discovery Report**"

**LegalTech News 2015 Innovation Awards:**  
FTI Technology recognized as a finalist for the e-discovery review platform and best e-discovery managed service provider

Forensic & Litigation Consulting segment named a leader in **The Legal Intelligencer's "Best Litigation Consulting Firm"** category and by **American Lawyer Media**

Forensic & Litigation Consulting named to **The National Law Journal's 2015 "Readers' Choice of Legal Services"** survey

FTI Consulting honored by the **10th Annual M&A Advisor Turnaround Awards** for the highest levels of performance during 2015 in the **distressed investing and reorganization industry**, covering lower middle market to multi-billion dollar restructurings and transactions
